

11. How to remotely view the cameras on computer?

The Computer Management Software (named "VMS") enables you to view, playback and manage the camera system on PC Client.

① Connect NVR with LAN port of home router via Ethernet cable (make sure your system is "Connected").

② Please go to our website directly to download PC software to your computer:
http://www.ckkcamera.com/download_category.php?id=12

Note: PC software for Windows system and for Mac system is different.

③ Install and run PC software on your computer and log in

Default User Name: admin

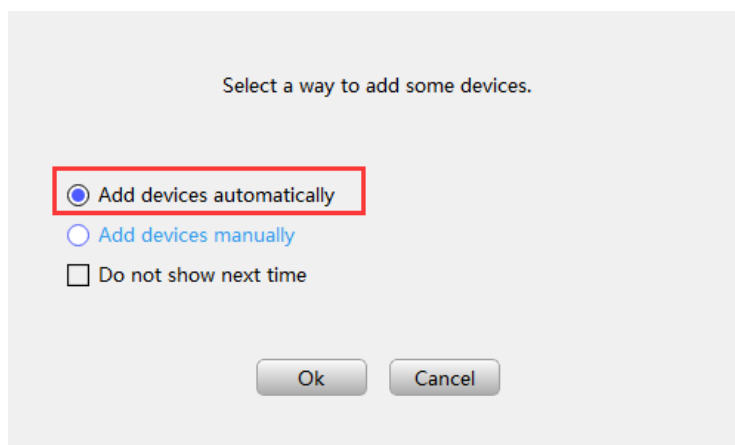

Default Password: admin

The screenshot shows the VMS login window. At the top, there is a grey header with the 'VMS' logo. Below the header, there are two input fields: 'UserName:' with 'admin' entered, and 'Password:' with six black dots. A checkbox labeled 'Remember Password' is checked. At the bottom, there are two buttons: 'SIGNIN' and 'CANCEL'.

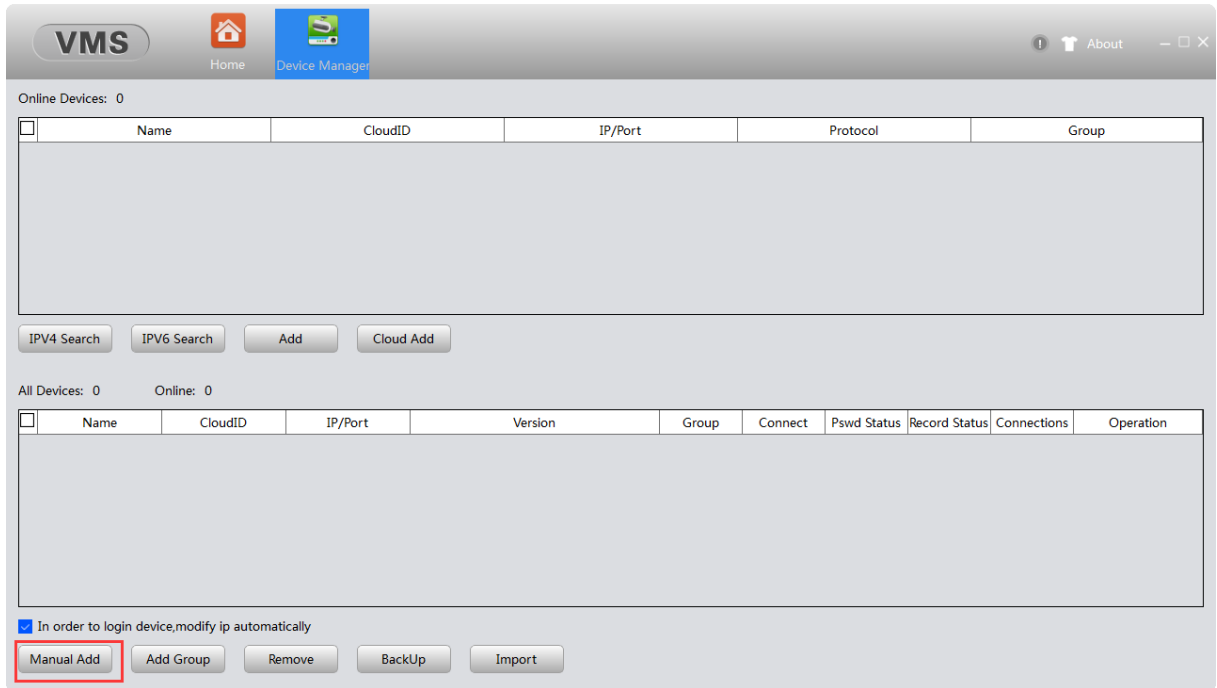

④ Add Device:

After logging in, the following window will pop up. If the computer and NVR are connected to the same network, click "Add devices automatically" to add the device.

The screenshot shows a dialog box titled 'Select a way to add some devices.' It contains three radio button options: 'Add devices automatically' (which is selected and highlighted with a red box), 'Add devices manually', and 'Do not show next time'. At the bottom, there are two buttons: 'Ok' and 'Cancel'.

If the computer and NVR are not connected to the same network, click "Add devices manually" to add the device.

Fill in the device information

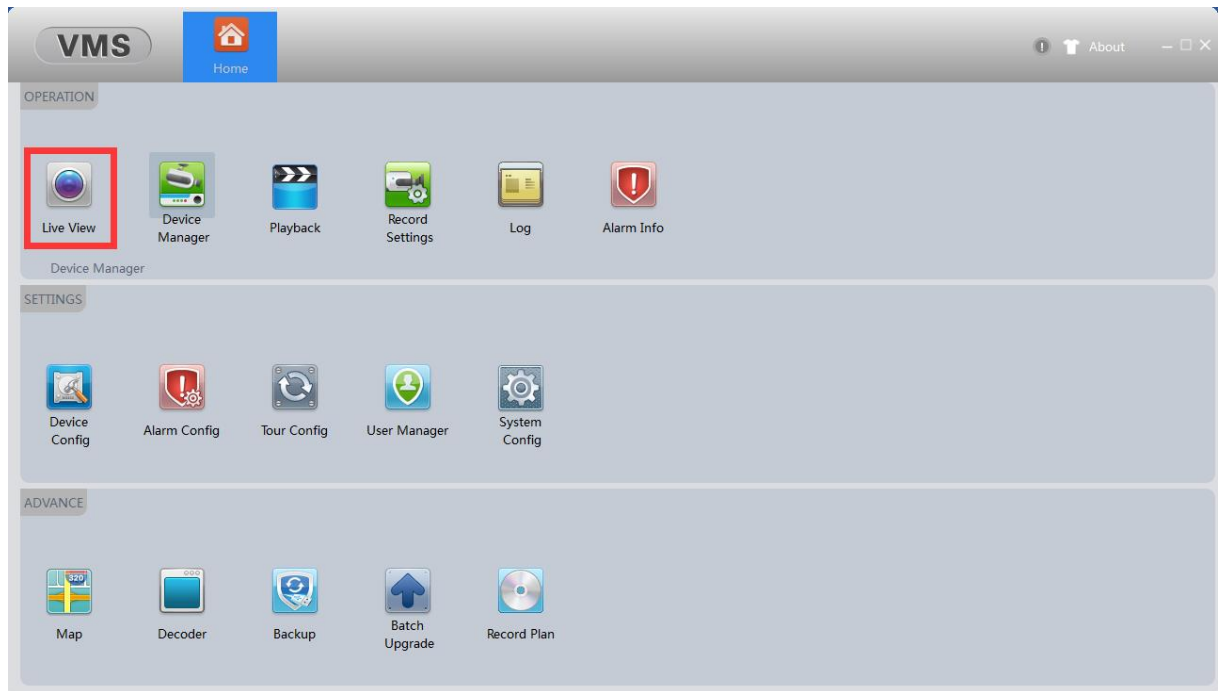

---Device name: Customize the system name (such as home, office, room...)

---Login Type: Select "Cloud ID"

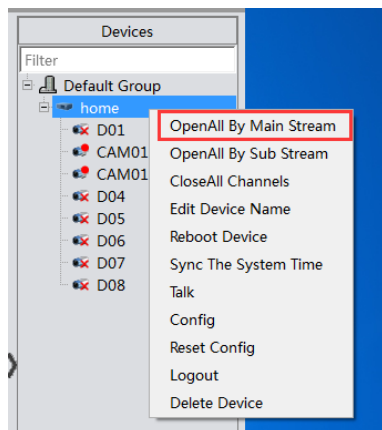

---Cloud ID: Please login NVR and right-click mouse navigates to **Main Menu** --> **Advanced** -->**Version**, You can see the **Serial number**.

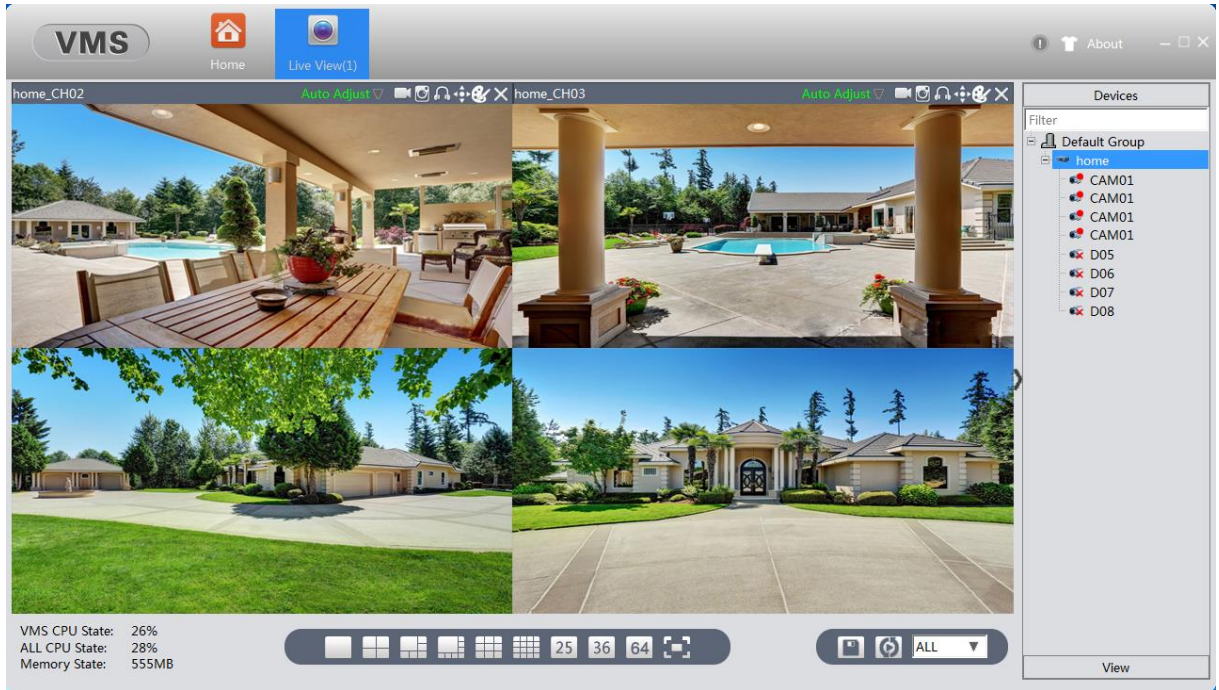

---Username & Password (same as NVR system).

⑤ View Camera on computer:
After you add device successfully,
please return to the main interface,
click "**Live View**" to watch the video.

Please move the mouse to the device name, right click and select "**Open All By Main Stream**" to open all channels or double click each channel one by one to get the videos.

Please scan this QR code to learn more about VMS Client software.
